## Serval, the academic repository of Lausanne

Serval is a database listing the publications of UNIL and CHUV researchers, including theses. Serval is aligned with the «Open Access» movement, allowing free online access to scientific documents and data. UNIL strongly encourages you to publish the full text of your thesis on Serval, paying attention to copyright law in the event of publication by a commercial publisher. Whether or not you publish the full text, providing an abstract (in one or more languages) allows increased opportunities for your work to be located and shared. Therefore, we strongly encourage you to provide us with a copy.

We encourage you to enter the data yourself on Serval via MyUnil <https://my.unil.ch/>. The Serval website gives you further information regarding copyright law, the Open Access movement and data entry : <http://wp.unil.ch/infoserval>
